### 3.1 (b)

#### HOUSING FACILITIES, GENERAL.

Condition and site. Housing facilities and areas used for storing animal food or bedding must be free of any accumulation of trash, waste material, junk, weeds, and other discarded materials. Animal areas inside of housing facilities must be kept neat and free of clutter, including equipment, furniture, and stored material, but may contain materials actually used and necessary for cleaning the area, and fixtures or equipment necessary for proper husbandry practices and research needs. Housing facilities other than those maintained by research facilities and Federal research facilities must be physically separated from any other business. If a housing facility is located on the same premises as another business, it must be physically separated from the other business so that animals the size of dogs, skunks, and raccoons are prevented from entering it.

AT THE TIME OF THIS INSPECTION, THE FLOORS AND OTHER SURFACES INSIDE THE ANIMAL BUILDINGS HAVE NOT BEEN CLEANED AS REGULARLY AS NEEDED AND REQUIRED. THE FLOORS WERE DIRTY AND SPILLED FEED WAS SCATTERED ACROSS THE FLOORS. ALL ANIMAL AREAS MUST BE FREE OF DIRT AND CLUTTER. THIS WOULD REDUCE THE RISKS OF DISEASES, VERMIN AND FACILITATE PROPER HUSBANDRY PRACTICES. THIS AFFECTS ALL ANIMALS. CORRECT BY 9-26-09.
